**Goods & Services:**

**009** - Electrical and electronic apparatus and instruments for use in the field of energy generation, namely, computer hardware and computer software both for recording, processing, and evaluating data regarding operation of electric turbines and electric generators.

**042** - Engineering, research and development in the field of energy generation, namely, in the field of the operation of electric turbines and electric generators; development of installations and apparatus for energy generation, namely, development of electric turbines and development of electric generating apparatus and installations.

- **009** - Bodies for technical trials in the context of driver assistance systems, namely, impact simulation test equipment in the nature of crash test dummies, crash barriers, crash tracks, and crash targets to simulate pedestrians or other vehicles; Test devices, namely, vehicle test equipment in the nature of targets for testing sensory and control capabilities of driver assistance systems, namely, systems comprised of sensors, regulators, controllers, and processors for detecting potential road hazards and automatically implementing avoidance maneuvers; Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, checking, life-saving and teaching apparatus and teaching instruments, namely, simulation equipment for simulating road hazards for use in vehicle testing.
- **042** - Providing scientific information and advice in relation to carbon dioxide offsetting; Engineering services in the field of automotive engineering; Technical testing, namely, automotive safety testing and consultation, namely, testing the performance of vehicle driver assistance systems for detecting potential road hazards and automatically implementing avoidance maneuvers, and providing advice, information and reports regarding such testing; Calibration and function testing of measuring instruments; scientific research; product research in the field of driver safety; vehicle roadworthiness testing; Provision of scientific advice and information regarding the automotive industry.

- **036** - annuity underwriting, excluding banking services and financial management and financial analysis in the field of banking.

Goods & Services:

036 - Administration of employee benefit plans
Goods & Services:

006 - Common metals and their alloys; metal building materials, namely, wall panels, ceiling panels, ceiling supports, tubes, frameworks, doors, door panels, softfits, fascia, metal trim for buildings and roofing tiles; small items of metal hardware, namely, pulleys, springs, nuts, washers, thimbles, locks and keys therefor, key blanks and padlocks; goods of common metal not included in other classes, namely, barrel hoops of metal, boxes of common metal, ring-shaped fittings of metal, pipes, bolts, valves, casings; partitions of metal, namely, metal partition walls; prefabricated metal wall panels and structural parts therefor, namely, metal sections, metal connecting pieces and metal building anchors; transportable buildings of metal; metal walls, prefabricated metal partition walls and metal system walls and other prefabricated metal walls, namely, wall panels of metal and metal curtain walls; metal floors and floor parts, namely, metal floor tiles and metal expansion joints for floors; window screens of metal

009 - Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, checking, supervision, life-saving and teaching apparatus and instruments, namely, level measuring machines, surveying machines and instruments, photographic cameras, cinematographic cameras, video cameras, optical lenses, scales, measuring tapes and signaling buoys; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely, electrical conductors, electrical switches, electrical transformers, electric accumulators and voltage regulators for electric power; data processing equipment, namely, data processors; computers; computer hardware; computer peripheral devices; uninterruptible power supplies for computers; internal cooling fans for computers; power supplies, namely, emergency power supplies and uninterruptible power supply systems; telecommunications apparatus, namely, wireless access point (WAP) devices, wireless network repeaters, wireless network extenders, amplifier for wireless communications, antennas for wireless communications apparatus and apparatus for wireless transmission of acoustic information; modems; switching devices, namely, power switches, computer switches and differential switches; the aforesaid goods for the equipping of data centres

019 - Non-metallic building materials, namely, building glass, semi-worked woods, plastic pipe supports, fly ash, composite panels composed primarily of non-metal materials, wall boards, decking boards, wood boards, non-metal building anchors, non-metal mandrels and non-metallic reinforcements for concrete and wood building construction, namely, plates, rods and bars; non-metallic transportable buildings; monuments, not of metal, namely, monuments of stone, concrete or marble; non-metal doors; non-metal door frames; partition walls, not of metal; prefabricated walls not of metal and structural parts therefor, namely, non-metal wall sections and non-metal connecting pieces; building materials not of metal which when combined and assembled constitute a prefabricated data centre, namely, building glass, semi-worked woods, plastic pipe supports, fly ash, composite panels composed primarily of non-metal materials, wall boards, decking boards, wood boards, non-metal mandrels and non-metallic reinforcements for concrete and wood building construction, namely, plates, rods and bars

035 - Mediation of agreements regarding the sale and purchase of goods, namely, professional business mediation in respect of agreements regarding the purchase and sale and import and export of common metals and their alloys, building materials, transportable buildings, small items of metal hardware, goods of common metal, metal doors and frames, partition walls, parts for building elements, prefabricated walls and parts therefor, including sections, connecting pieces, building anchors, semi-finished products of metal, walls, prefabricated partition walls and system walls and other prefabricated walls, floors and floor parts and screens of metal, building materials which when combined and assembled constitute a prefabricated data centre, scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, checking, supervision, life-saving and teaching apparatus and instruments, apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, data processing equipment, computers, computer hardware, computer peripheral devices, uninterruptible power supply units, in particular for computers, cooling fans, being parts for computers, emergency power apparatus and installations, including uninterruptible power supply systems, telecommunications apparatus, including electronic apparatus for wireless communications and wireless computer networks, modems and switching devices; advertising and publicity services; sales promotion services; consultancy and information on the aforesaid services via electronic networks such as the Internet, namely, consultation services in the fields of mediation of agreements regarding the sale and purchase of goods, advertising and publicity services and sales promotion services

037 - Building construction services; installation services, namely, installation of metal building materials, non-metallic building materials, building insulation, walls, panels, doors, windows, electrical systems, computer systems and appliances; installation in the nature of positioning, and repair of profile systems, system walls, and system floors in buildings; providing information in the field of building construction; building construction supervision and management; building contracting, namely, general construction contracting and roofing contracting; installation of insulating materials; repair and maintenance of building structures and buildings; construction consultancy, namely, technical construction consultancy regarding the use and application of parts in and for building components, system walls and system floors; construction of data centers, namely, installation, assembly, positioning and combining of prefabricated building materials to form data centers; installation, maintenance and repair of computers, computer hardware, computer peripheral devices, uninterruptible power supply units for computers, cooling fans
for computers, emergency power apparatus and installations, namely, uninterruptible power supply systems, telecommunications apparatus, namely, electronic apparatus for wireless communications and wireless computer networks, modems and switching devices; technical consultancy, namely, construction consultancy; providing information on the aforesaid services

**042** - Design and development of new products for others, namely, design and development of building materials, transportable buildings, small items of metal hardware, goods of common metal, metal doors and frames, partition walls, parts for building elements, prefabricated walls and parts thereof, including sections, connecting pieces, building anchors, semi-finished products of metal, walls, prefabricated partition walls and system walls and other prefabricated walls, floors and floor parts and screens of metal, building materials which when combined and assembled constitute a prefabricated data centre, scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, checking, supervision, life-saving and teaching apparatus and instruments, apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, data processing equipment, computers, computer hardware, computer peripheral devices, uninterruptible power supply units, in particular for computers, cooling fans, being parts for computers, emergency power apparatus and installations, including uninterruptible power supply systems, telecommunications apparatus, including electronic apparatus for wireless communications and wireless computer networks, modems and switching devices; consulting in the field of engineering and architecture, namely, planning and consultancy offered by engineers regarding building construction and technical assessment of building plans, project studies regarding building works, and evaluation of the results; consulting in the field of engineering and architecture, namely, design and planning and consultancy regarding building construction as part of the development of building projects, and evaluation of the results; architectural and engineering services for building construction; engineering services, namely, drawing-up of expert reports by engineers; technical building construction consultancy; quality control for others, namely, quality control for building construction and building works; providing quality assurance services in the field of building construction and building works; engineering; consultancy and providing information on the aforesaid services via electronic networks such as the Internet
